

# THE GCDuino<sup>2</sup> PINOUT DIAGRAM

## Programmer Connection

- ! Components face up When plugged in
- i Uses Serial Rx & Tx Pins

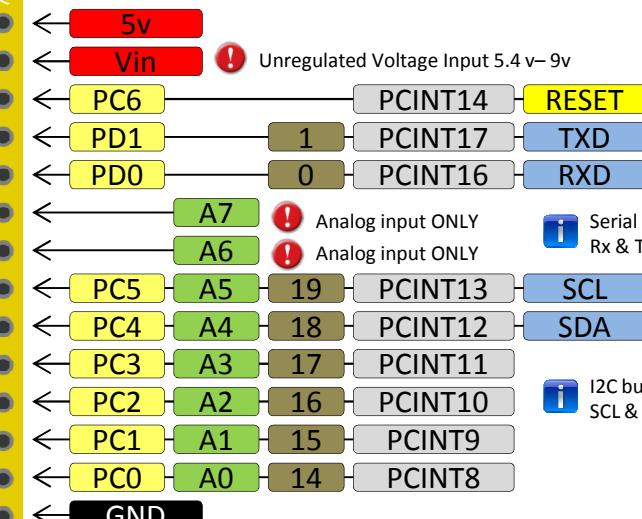

## LEGEND

Ground
Power
Port Address
Digital Pin
Analog Pin
Pin Change INT
Communication
Control
Pin Function
PWM
Special

- ! IMPORTANT
- i INFORMATION

! Unregulated Voltage Input 5.4 v–9v

i Serial is the Rx & Tx Pins

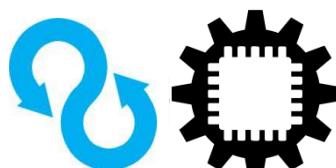

i I2C bus is the SCL & SDA Pins

gcdduino.com

! Absolute max current draw 200mA  
For the entire package

! Absolute max current draw per pin 40mA  
Recommended 20mA
